ONLINE MEDIATION TRAINING WITH A COACH

There are many organisations offering accredited mediation training courses but none offering training in the new online mediation using Zoom, our preferred video platform of choice.

GMS can supplement your accredited mediator status by coaching you in three 45-minute online sessions and add online mediation to your practice and stay ahead of your competitors.

Session #1

After completing the first 45-minute online program you will be proficient in: -

- Screen sharing (sharing any documents, photographs, Agreement to Mediate and Memorandum of Understanding, on screen)
- Annotate on screen with a shared whiteboard
- Play videos on-screen to attendees by accessing computer sound
- How to enable a Virtual Background with your logo for online presentations
- How to place companions, lawyers or trade union representatives in virtual "Breakout Rooms"

The 45-minute session is followed by a 15-minute debrief to see what went well and to answer any questions.
